The Candy Pig

Emilie Poulsson

Once upon a time, during a magical Christmas, lived a cheerful little girl named Kaisa. She received a most extraordinary gift that year - a captivating candy pig. Kaisa thought it was the most beautiful candy pig she had ever seen. It was wonderfully pink and delightfully big.

"Oh, it's the loveliest candy pig in all of Sweden!" Kaisa exclaimed. The shop that made it couldn't possibly have made a finer one. She decided to cherish this candy pig all her life, no matter how old she grew.

However, as time passed, a mischievous thought slipped into Kaisa's mind. She found herself staring at the pig's ears, contemplating. "Why would a candy pig need ears?" she pondered. And before she knew it, she bit into the sweet ears. To her delight, they were delicious.

Not long after, Kaisa picked up the candy pig and considered its legs. "You don't need legs, dear pig. After all, I'm always carrying you wherever we go," she reasoned. The candy legs were temptingly sweet. A tantalizing thought flashed across her mind, "Why not eat all the rest?"

And that's exactly what she did. Despite the candy pig's considerable size, Kaisa nibbled away at it. She ate and ate, until she had devoured the entire charming candy pig.

But alas, after her sweet feast, something felt wrong. A terrible pain began to twist in her tummy. She cried out, "Oh, Mother, help! I'm in such pain. I never, ever want to see a candy pig again."

And that's the story of Kaisa and her candy pig. She learned the hard way that while candies are delightful, moderation is key.
